Dear Children,

Asalaam O Alaikum! Hope you are doing well. This is the second issue of our magazine. You will find it more interesting than the last one. A few people downloaded and read our magazine, but none of them sent us any article or story, or took part in any competition.

Dear, please send us your stories, poems and articles with your name and city name mentioned. Your story will be published in the magazine and your name will be mentioned in it. Take part in competitions and if you will win not only your work will be published here, you will receive a beautiful (online) certificate (through your email).

Also tell your family and friends about this magazine. We shall be very thankful.

We are looking forward for your feedbacks.

Best Regards

Editors

The spread of Islam to Europe

In the second half of the 7th century Arab armies expanded the Muslim empire. They arrived in North Africa. The local people, who were nomadic tribesmen called ‘Berbers’ or ‘Moors,’ were attracted to Islam.

In 711, an army of Moorish soldiers crossed the Straits of Gibraltar, marched North, and attacked Spanish cities. By 714, most of Spain was under the control of Arab Muslims. Muslim rule though was strongest in the South, which was called by an Arabic name – Al-Andalus. Today this region is still called Andalusia and Moorish influence remains strong.

BOOKS REVIEW

Hatim Tai:

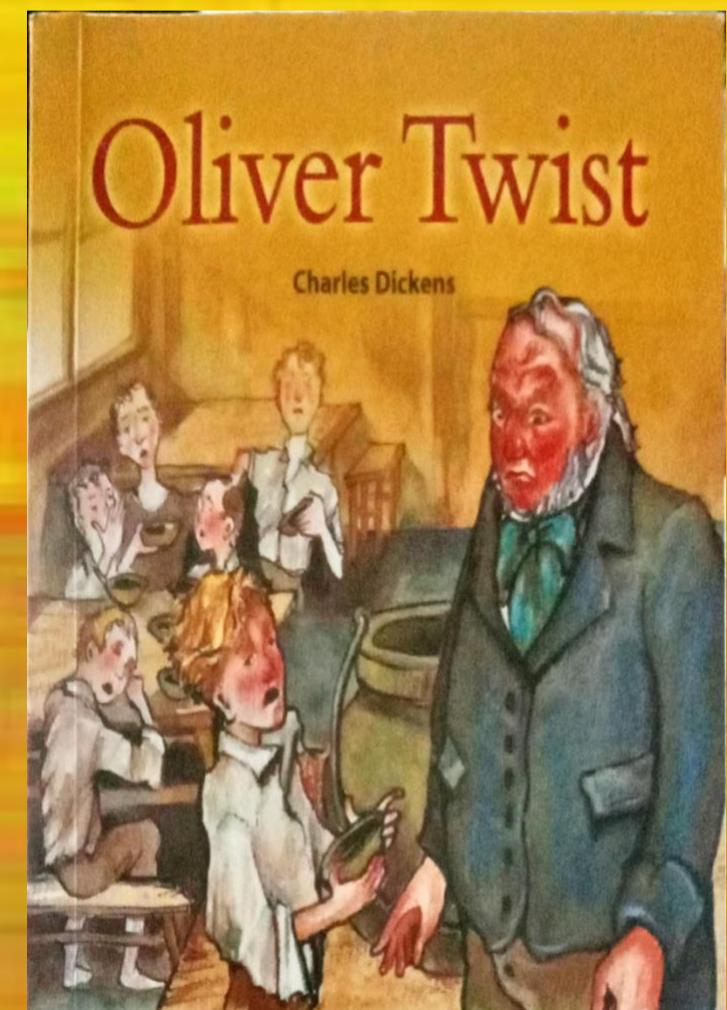

It is the series of a writer called A.Hameed. In the story you will read that how a man called Hatim Tai, who died 1500 years ago, came to life and how he helps the needy and poor people. 7 parts of this series has been published:

Hatim tai in
Lahore,Dilhi,Paris,Libnan,London,Africa,Israel

Oliver Twist:

It is a novel by Charles Dickens. He had wrote about a poor boy. With him everyone was unkind instead of few people who took care of him when they met him. He was raised in a workhouse where he worked with other children and they all got little food at mealtimes. Sometimes the officers of the work house looked him. One day he was sold to a undertaker. You will read in the book how he survived his life and how he was able to get out of shop and how he was involved with thieves. Furthermore, you will read that how he realized that it is a bad job and how he tries to escape. You will know how he became a rich boy and knew about his family. Who are the people who helped him.

My Dear Cycle part ii

People now recognize me because of it, but I don't touch it. It has been kept for a specific purpose, that is, whenever someone sees a bicycle lying in the house and comes to ask for it for a while, then we happily provide it to him. When he returns, he do thanksgiving as well as cycle glory like this:

Sir, your bicycle is very tight, many times it has been re-mounted but the tire could not be moved. Then abruptly the tire said:

'Tham a rahroo that perhaps there is a difficult situation.' Perhaps there is paper in its tube which even cannot bear a little pressure.

She is so old that neither anyone is willing to buy it nor my heart wants to keep it. I have tried a thousand times. Beauty has also been improved and I has explained her that "My dear, now live with someone else." , but the cruel has got so much love and devotion that she does not even want to leave.

When a customer gets stuck by a mistake, then she itself begins to tear him apart. She makes such painful noises from every joint that the customer gets pity on him and leaves with the promise of evening. But the evening of her departure has not yet came and now it remains in this house in which it came like an East Bridal and the hope is certain that one day her funeral will rise from our house. Now, I am ready to let someone "head" her without any cost. For this purpose, I have left her outside without a lock many times, but no one even kidnaps this beautiful scholar.

(Khati meethi bataain: by Doctor Muhammed Saleh Tahir)

POEMS

The tide Rises, the Tide falls

The tide rises, the tide falls,
The twilight darkens, the curlew calls;
Along the sea-sands damp and brown
The traveller hastens toward the town,
And the tide rises, the tide falls.

Darkness settles on roofs and walls,
But the sea, the sea in the darkness calls;
The little waves, with their soft, white
hands,

Efface the footprints in the sands,
And the tide rises, the tide falls.

The morning breaks; the steeds in their
stalls
Stamp and neigh, as the hostler calls;

The day returns, but nevermore Returns
the traveller to the shore,
And the tide rises, the tide falls.

HENRY WADSWORTH LONGFELLOW

Why I can't do this

Why I can't do this
To go out and play frisby
If I go to do this
This will hit me like this

Why I can't do that
To jump on the tod pad
If I go in pool of tod
I will get muddy mode

Why I can't do this
To touch my brother's pen ink
If I touch it
I will get purple pill

Once I asked why I can't do these
The answer didn't made me please
The answer was this
You are just of age three
(By the editor Abdul Ber)

Study less score more

In this article you will read the right ways of learning and doing preparation for exams ,tests or homework.

1: Distraction:

The most disturbing and the thing that not lets you to do work is distraction. It can be physical or technical distraction. In physical distraction you can be disturbed by your little brother or sister like they are playing and from your parents when they are talking. You need a separate room for doing the homework or tell your parents and little siblings that I am studying don't disturb. In technical distraction you can be distracted by your phone like you received a notification of a game event and you said if I will play it just for 10 minutes it will not interrupt my studies and after doing this your 10 minutes is converted to 1 hour. So first you have to turn off your phone.

2: Time table:

If you think that I don't need Time table than you are wrong. I mean time table for studies is essential, like it is your holidays and you want to do preparation for exams you will make a time table that from 10 -12 you will study maths ch no. 1 and from 12:15 to 2:15 you will study math ch no. 2 or science ch no.2. Start with hard ones and do easy things in last.

3: Sleep well:

It is important for you to sleep enough or make a routine. If you don't sleep enough you will feel tired and you wouldn't be able to do anything.

4: Learning list:

It is sometimes hard to learn a list of items in a particular pattern. So for getting out of the time taking method you can use this method in which you will first learn 1st or 2nd words or lines of the list. Then the 3rd one. Then repeat the 1st, 2nd and 3rd. After that learn the 4th point. Then repeat the 1st 2nd 3rd and 4th points. Repeat this method until you have learned all.

5: Audio vs text format

Record the thing you are going to learn take an essay for example. Record the essay on your mobile. Repeat one line two times. Then listen to your recording. It will be helpful to commemorate the essay or anything else you want to learn. Because it is a universal truth that we, humans, remembers audio or pictures/ videos more than text.

**Jokes**

Lawer from the woman to verify:
When you saw doors,windows,trunks and drawers open and the things here and there why you didn't thought that your house is robbed?

Woman: Because I thought my husband was finding his tie.

Thief from passer by:
Did you saw any guard nearby?

Passer by: No
Thief while showing gun to passer by:

So give your mobile and wallet to me.

A clerk to his partner: What happened? Why are you not drinking coffee during break time.

His partner: I am not fool like you, drinking coffee interrupts my sleep.

Nazeer to his brother :
Today I made my enemies teeth sour.
Brother: How?
Nazeer : By tamarind.

Boy to his mother while entering the room in hurry:
Mom turn off all lights, fans, AC and close all windows and doors. His mother did what he said and they sat down in a room. Than his mother said: What happened?
'Mama look my new watch, it is shining.'Said the boy while showing his watch.

Two people were fighting in the street. One said: You are donkey.
Second said: You are donkey's son.
Passer by: Why! You both are father and son and you both are fighting.

Once a man was very sad. His villager friend came to him and said: Why are you so sad? what had happened to you?

The sad man: My son's heart had failed.

Villager: it is not a serious matter if Allah will want it will pass next year.

LONDON City

History of London

The city of London was founded by the Romans and their rule extended from 43 AD to the fifth century AD, when the Empire fell. During the third century, Londinium, the name given to the town by the Romans, had a population of 50,000, mainly due to the influence of its major port.

Big Ben

1852: John Dent was appointed to build the clock to the designs of Edmund Beckett Denison. This was the same year that the New Palace of Westminster was opened by Queen Victoria at the State Opening. 1854: The clock mechanism was completed. 1856: The first 'Big Ben' bell was casted at Warners of Norton near Stockton-on-Tees.

River Thames and London bridge

The story of the River Thames goes back to over 30 million years ago when the river was once a tributary of the River Rhine because Britain was not an island. During the Great Ice Age 10,000 years ago the Thames changed its course and pushed through the Chiltern Hills at a place we now call The Goring Gap. London Bridge, as we know it today, was opened to traffic by The Late Queen Elizabeth II on 16 March 1973. Now made of concrete and steel, it replaced a 19th century stone arched bridge designed by Scottish civil engineer John Rennie, which in turn succeeded a 600-year-old stone-built structure.

Interesting facts

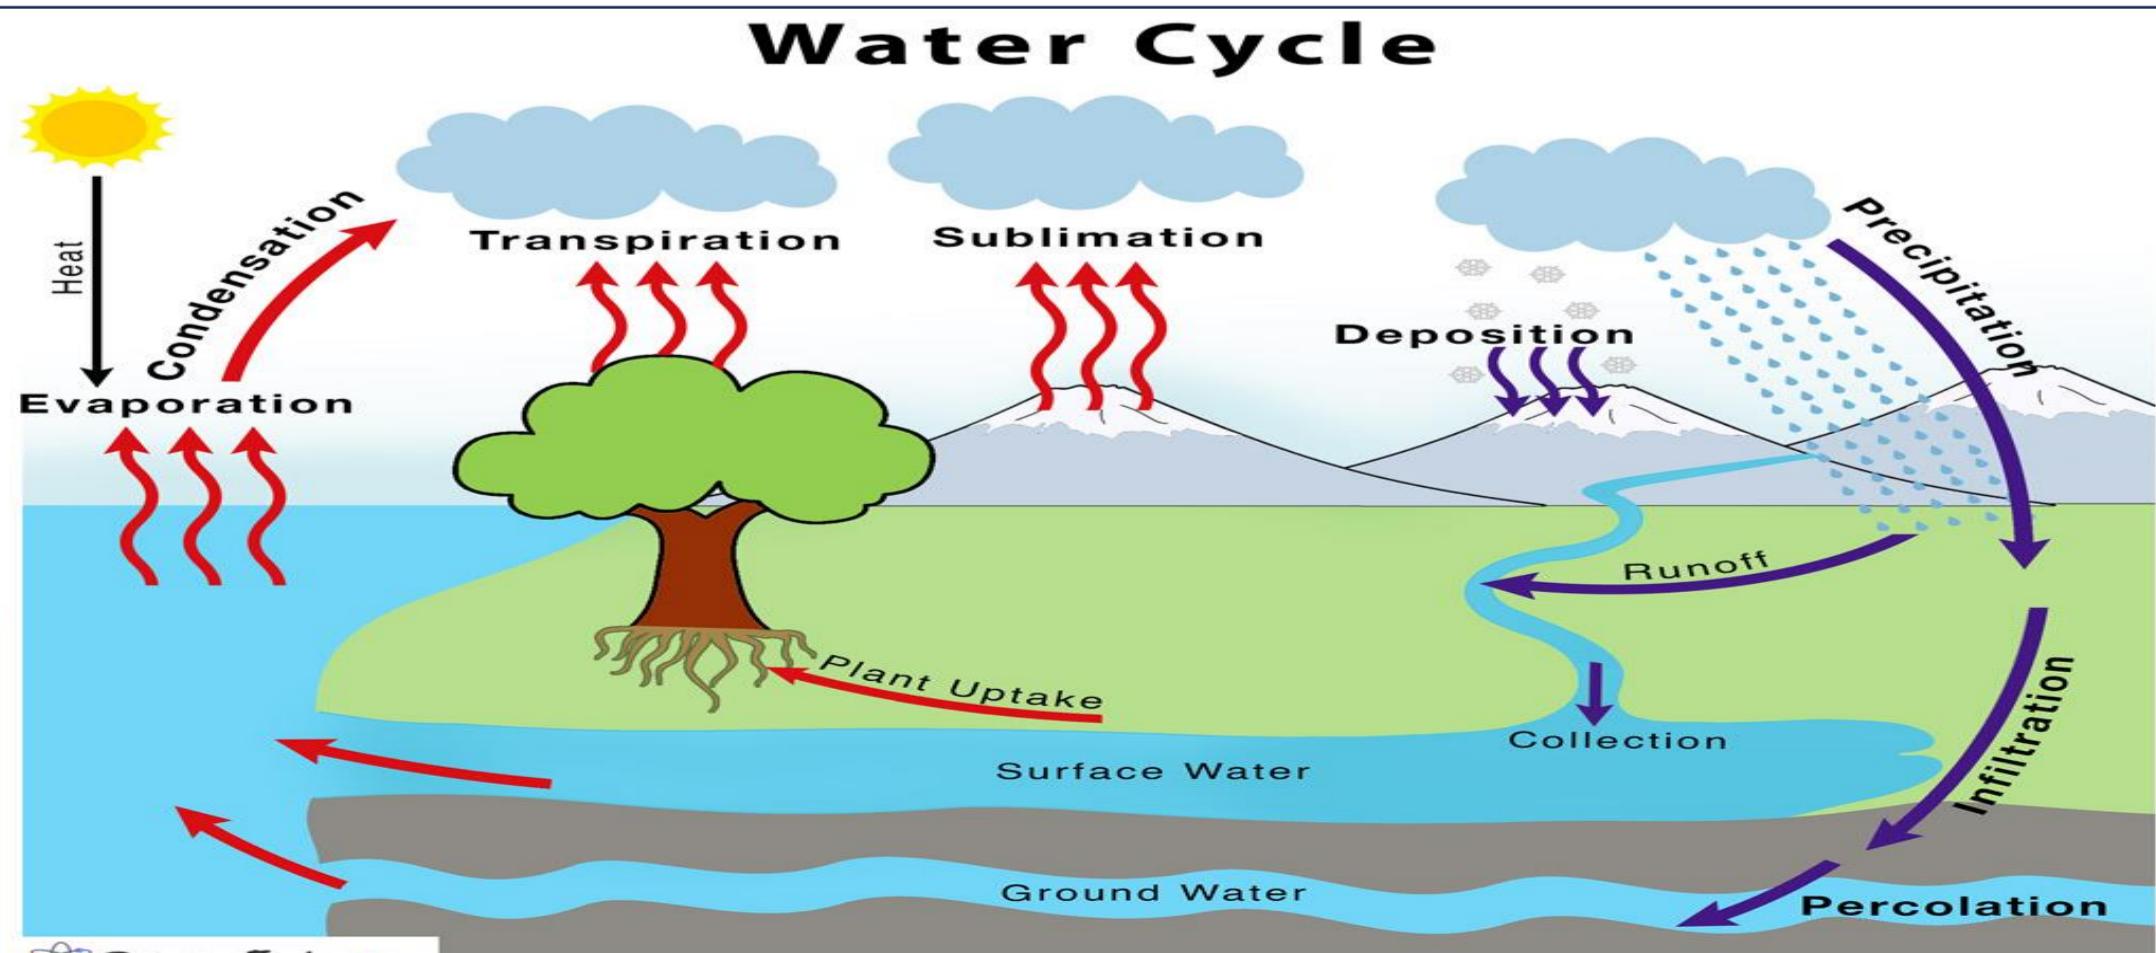

- London is the capital city of England.
- The smallest City in England is London.
- The city has a Peter Pan Hospital.
- There are six ravens in the Tower of London.
- London is considered a forest.
- There are over 170 museums in London, including 11 national ones.
- London is a famous tourist destination because of its history, vibrant local culture, and delectable food.

Water Cycle

The red and blue arrows in the following picture shows that water is constantly transferred in a continuous cycle called the '**WATER CYCLE**'. Water evaporates from sea, rivers and lakes and stays as vapour in the air. If water vapour is cooled, it condenses and forms clouds. Further cooling results in rain and snow.

When water evaporates, anything, i.e. salt, which is dissolved in the water stays behind. Only water evaporates. This means that water cycle plays important part in supply of fresh water.

The water of seas, rivers and lakes evaporate in the form of water vapour. In addition the plants lose their moisture through the tiny holes called stomata in their leaves which also rises as water vapour. Lastly, the water and moisture in the soil and rocks also evaporates. The water vapour stays up in the sky until it cools and condenses, and forms clouds. When the clouds are heavy enough, it rains. The water is collected as ground water or surface water through surface runoff and infiltration, then this water is transferred again to the water bodies, plant (through their roots) and some is stored in the soil. Then the whole cycle repeats from the start (i.e. the evaporation process).

Volcano mountain

Things required:

Red or green clay(depending on the style of your mountain)

Vinegar

Disposable bowl(the back must be flat)

Red food colour liquid 2-3 drops

Baking soda 1 spoon

Steps to be taken:

- 1: Make a clay mountain on the bowl and hollow it's top depending on bowl size.
- 2: Add vinegar in the bowl. Don't fill the bowl just half of the bowl should be filled.
- 3: Add food colour and mix it slowly with the help of spoon.
- 4: Then add baking soda and see magic.

In The Name Of Allah, The
Most Kind The Most Merciful

“Muhammed (PBUH) is not father of any of your men, but he is the Messenger of Allah and the Last Prophet, and Allah is the one who knows everything.” (SURAH AL AHZAAB, VERSE: 40)

Sayings Of Prophet Muhammed (PBUH)

“Do not wish to be like anyone except in two cases.

(The first is) a person, whom Allah has given a wealth and he spends it righteously; (the second is) the one whom Allah has given wisdom (the Holy Qur'an) and he acts according to it and teaches it to others.” (Related to Bukhari)

Funny Riddles

Why do bees have sticky hair?
Because they use honey combs!

Why are ghosts bad liars?

Because you can see right through them!

What do you call an alligator in a vest?

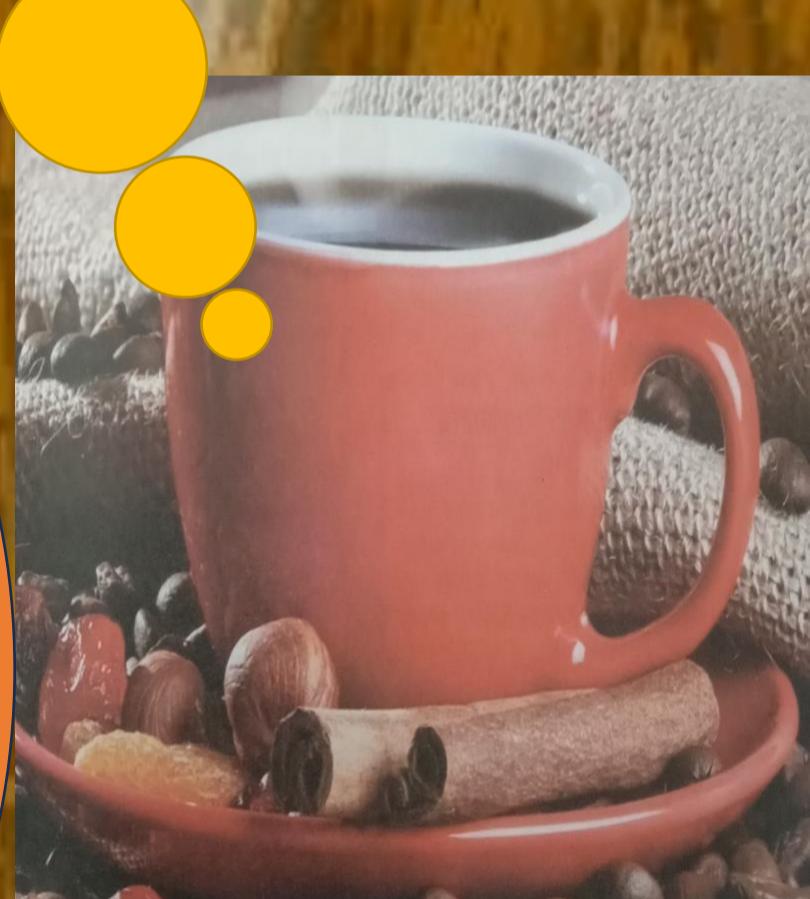

An investigator!

Did you know?

Caffeine-free coffee does not mean decaf. An eight-ounce brewed cup of decaf coffee contains two to 12 milligrams of caffeine. A standard cup of coffee has between 95 and 200 milligrams of caffeine, while a can of cola contains between 23 and 35 milligrams.

Quotes :

- Look up at the stars and not down at your feet.
- You never fail until you stop trying.
- The more you read, the more things you will know.
- The tougher the fight, the more important the mental attitude.

COMPETITIONS

Because no one participated in any competitions, there are no separate pages for them. To send answers of 'Mr Quiz', send them on our email address or write the answers on paper with write numbering and post them to our office address.

The topic of Art Competition is: 'Hardworking Teachers'. Send us the drawing on our office address or email the picture of the drawing but the picture should be clear. The drawing should be coloured and neat. Write your name, age, class, school name, city name, phone number and email address at the back of the page.

Send the answers of riddles either on email address or office address. Write your name and city as well.

Send us other articles and stories and poems too! Don't forget to mention your identity (name, city, etc.)

The theme of story Competition is: 'My childhood days'. The story can be funny or serious, it can or cannot have moral.

The topic (here it does not mean theme) of the story must be selected by you. The story should be no more than 500 words. It could be less than this word limit. Send us story on email or address.

The last date of sending anything is 12th October.

Why's the Sun red during Sunrise and Sunset?

As day breaks, a reddish-white ball of light that we call the sun, rises. This red haze gives way to a golden-white sheen as the day advances and reappears when the sun sets in the evening. Does the sun really change colours, or does it only seem so? The explanation lies in-between.

Light from the sun consists of three kinds of radiation – ultra-violet rays, visible light and infra-red rays. Unlike visible light, ultra-violet rays and infra-red rays cannot be seen.

The visible light's rays are white and consist of seven colours – violet, indigo, blue, green, yellow, orange and red (known simply as VIBGYOR)

The earth's dust, gas and air particles scatter the sun's light in different directions. Violet light has a peculiar property due to which it gets scattered the most. Red light gets scattered the least.

At sunrise the earth is rotating towards the sun. Similarly, during sunset, the earth is rotating away from sun. During these times the sunlight has to travel at an angle and thus cover a longer distance through the sphere. It encounters more obstacles in the path. Most of the colours, like green and violet, get scattered before the light reaches the earth. Since red is scattered the least, it is this colour that we see as it reaches us. During noontime, the sun is directly overhead and it appears white. This is because the sunlight has to cover a much lesser distance through the atmosphere and it faces less obstacles. Hence, it escapes a great deal of scattering.

In fact, if we were to calculate the distance the sun's rays have to travel through the denser part of the atmosphere (roughly around 150 kms) to any point on earth. We would find that this journey of the rays is almost 50 times more at sunrise and sunset than at noon.

The Adventures of Tom Sawyer

By:Mark Twain. (Part1). Selected by: Sibgha (editor in chief)

“Tom”

No answer

‘Tom!’

No answer

‘What’s gone with that boy. I wonder? You Tom?’ The old lady pulled her spectacles down and looked over them, about the room, then she put them up and looked out under them. She seldom or never looked through them for so small a thing as a boy, for they were her state pair, the pride of her heart, and were built for ‘style’ not service, she could have seen through a pair of stove lids as well. She looked perplexed a moment and said, not fiercely, but still loud enough for the furniture to hear. “Well, I lay if I get hold of you. I’ll...”

She did not finish, for by this time she was bending down and punching under the bed with the broom and so she needed breath to punctuate the punches with. She resurrected nothing but the cat.

‘I never did see the beat of that boy!’

She went to the open door and stood in it, and looked out among the tomato vines and jimpson’ weeds that constituted the garden. No Tom So she lifted up her voice, at an angle calculated for distance, and shouted:

‘Y-o-u-u-Tom!’

There was a slight noise behind her, and she turned just in time to seize a small boy by the slack of his roundabout and arrest his flight. “There! I might’ a thought of that closet. What you been doing in there?”

“Nothing.”

“Nothing! Look at your hands, and look at your mouth What *is* that truck?”

“*I* don’t know, Aunt.”

“Well, *I* know. It’s jam, that’s what it is. Forty times I’ve said if you didn’t let that jam alone I’d skin you. Hand me that switch.’

The switch hovered in the air. The peril was desperate.

“My! Look behind you, Aunt!”

The old lady whirled around and snatched her skirts out of danger, and the last fled, on the instant, scrambled up the high board fence, and disappeared over it. His Aunt Polly stood surprised a moment, and then broke into a gentle laugh.

“Hang the boy, can’t I ever learn anything? Ain’t he played me tricks enough like that for me to be looking out for him by this time? But old fools is the biggest fools there is. Can’t learn any old dog new tricks, as the saying is. But, my goodness, he never plays them alike two days, and how is a body to know what’s coming? He ’pears to know just how long he can torment me before I get my dander ul, and he knows if he can make out to put me off for a minute, or make me laugh, it’s all down again, and I can’t hit him a lock. I ain’t doing my duty by that boy, and that’s the Lord’s truth, goodness knows. Spare the rod and spile the child, as the good Bok says. I’m a-laying up sin and suffering for us both, *I* know. He’s full of the old scratch, but laws-a-me! he’s my own dead sister’s boy, poor thing, and I ain’t got the heart to lash him somehow. Everytime I let him off my conscience does hurt me so; and every time I got him my old heart

‘most break. Well-a-man, man that is born of a woman is feew days and full of trouble, as the scripture says, and I reckon it’s so. He’ll play hookey this evening, and I’ll just be obliged to make him work tomorrow, to punish him. It’s mighty hard to make him work Saturdays, when all the boys having a holiday, but he hates work more than he hates anything else, and I’ve got to do some of my duty by him, or I’ll be the ruination of the child.”

Tom did play hookey, and he had a very good time. He got back home barely in season to help the small coloured boy, saw next day’s wood, and split the kindlings before supper – at east he was there in time to tell his adventures to Jim while Jim did three-foueths of the work. Tom’s younger brother (or rather half-brother) Sid was already through with his part of the work (picking up chips), for he was a quiet boy, and had no adventurous, troublesome ways. While Tom was eating his supper and stealing sugar as opportunity offered, Aunt Polly asked him questions that were full of guile, and very deep – for she wanted to trap him into damaging revealments. Like many other simple-hearted souls, it was her pet vanity to believe she was endowed with a talent for dark and mysterious diplomacy, and she loved to contemplate her most transparent devices as marvels of low cunning Said she: “ Tom, it was middling warm in school, warn’t it?”

‘Yes, ‘m’

“Powerful warm, warn’t it?”

‘Yes, ‘m.’

“Didn’t you want to go in a swimming. Tom?” A bit of a scare shot through Tom—a touch of uncomfortable suspicion. He searched Aunt Polly’s face, but it told him nothing. So he said:

‘No, ‘m=well, not very much!’ (to be continue)

Mr. Quiz

1. Which of these is called the 'Killer Mountain'?
A. Mount Everest. B. Himalaya. C. Nanga Parbat
2. Who first suggested that all matter is composed of tiny indivisible particles called 'atoms'?
A. John Dalton. B. Democritus. C. Aristotle
3. Who is considered the father of nuclear science?
A. Niels Bohr. C. Ernest Rutherford.
B. J.J. Thomson
4. In which country of the world the Sun rises first?
A. New Zealand B. Norway. C. Japan
5. Where is Chasma Barrage?
A. River Ravi. B. River Jhelum C. River Indus
6. What is the full form of WAA?
A. World Allocation Accord. C. Water Allocation Accord
B. Wars Allocation Accord
7. When does World's Teacher Day occur?
A. 5 October. B. 9 October. C. 12 October
8. HTML is acronym for:
A. Hyper Text Main Language. C. Hyper Text Markup Language
B. Hyper Text Makeup Language
9. A device which holds data as long as it has power supply connected to it is called:
A. Secondary memory. C. Volatile memory.
B. Non Volatile memory
10. Which of these is a Forward Slash?
A. \. B. |. C. /

Answers of September issue:

Riddle Competition

Observe the square below. Write numbers in each box of the square such a way that if we add them horizontally, vertically or diagonally, the result is 15. You should use numbers from 1 to 9. Use one number only one time.

A cock laid 36 eggs in 14 days. 3 were eaten by the farmer. 16 were eaten by his family. 4 were stolen. 2 were hatched. How many eggs were left over?

Answers September issue:

1. Azher is the murderer, because he had toothache so how he can brush his teeth.
2. Azra had stolen Farhat's ring, because Farhat asked everyone that have they saw her jewellery, and Azra said she had not saw her ring. How she knew that her ring was lost.

The Terror Of Shimano (By: Abdul Ber Rajpoot). (Part 1 : In The Garden)

In the garden

It was May 29, 2023. It was just one day left for our holidays. My friend and me were very excited. I had already planned that I will go to the monal buffet breakfast.

“Alex, can I come to your house for a month, we will enjoy together.” said Charlie one of my friend to me at off time in the school.

“Sure!” I said.

“Good bye Alex, my driver has arrived.” said Charlie. After that I sat on my bicycle and headed towards my home. It was a cloudy day. I saw Pinky, my neighbour’s daughter who was asking for a doll in a toy shop.

“What do you saw in that doll? Buy this one!” said her mother mysteriously.

“No I want this one.” said Pinky. Pinky was six years old girl. She liked to play with Japanese style dolls. The one which she was going to buy looked like a Japanese beggar.

“Hi Pinky, Hi Aunt Nathalie.” I said.

“Hi Alex, how are you?” said aunt Nathalie.

“I am fine, thank you.” I said.

After that I headed to home. I was curious that why Pinky liked that doll. “I am back mum”.

“Welcome home, go and change your clothes first, don’t watch the TV first”. Then I changed my clothes and started to watch TV.

It was 4: 30 p.m. when I saw Pinky from my window, she was in her garden, she was playing with the doll she was asking for. The doll had black eyes, wearing Japanese clothes that were torn from the back. After a few minutes Pinky went inside her house to have lunch. I saw the doll moving towards me. First I thought it was just my imagination

But when I saw blood coming out from her mouth I was scared. I ran downstairs to tell mom about this but mom was not home. She was out to buy grocery. Some one started to knock at the door. By this I was more scared and went back to room to hide in the cupboard. I closed my eyes and stopped my breath. Then suddenly I heard my mother sound saying “Alex open the gate, open the gate.” Than I came out of cupboard and went to open the gate, in between I was thinking that if it was doll what would happen, than I opened the gate. It was my thought’s opposite means my mum. “Where were you?” she asked,” I was playing game on mobile”I lied. “Next time if you will open the door late for this than I will take your phone”.

After that everything was normal till night. I was sleeping, I suddenly woke up by a scream. I looked around but couldn’t see anyone. Then I again went to the window and looked at the garden , ”Everything looks normal.” I said to myself but when I turned around I saw the doll again on my bed laughing with a knife than I woke up and saw everything normal. It was 5: 45 a.m. I got up from my bed and started to be ready for the school. I washed my face and brushed my teeth. I ate my breakfast and wore on my school uniform and took my bag and went to school. When I came out of my house I went to the garden and looked there through the fence, I saw the doll and Pinky. Pinky was in school uniform and playing with her doll. “Pinky sweetie, come now it’s time to go to school.” Said her mother.

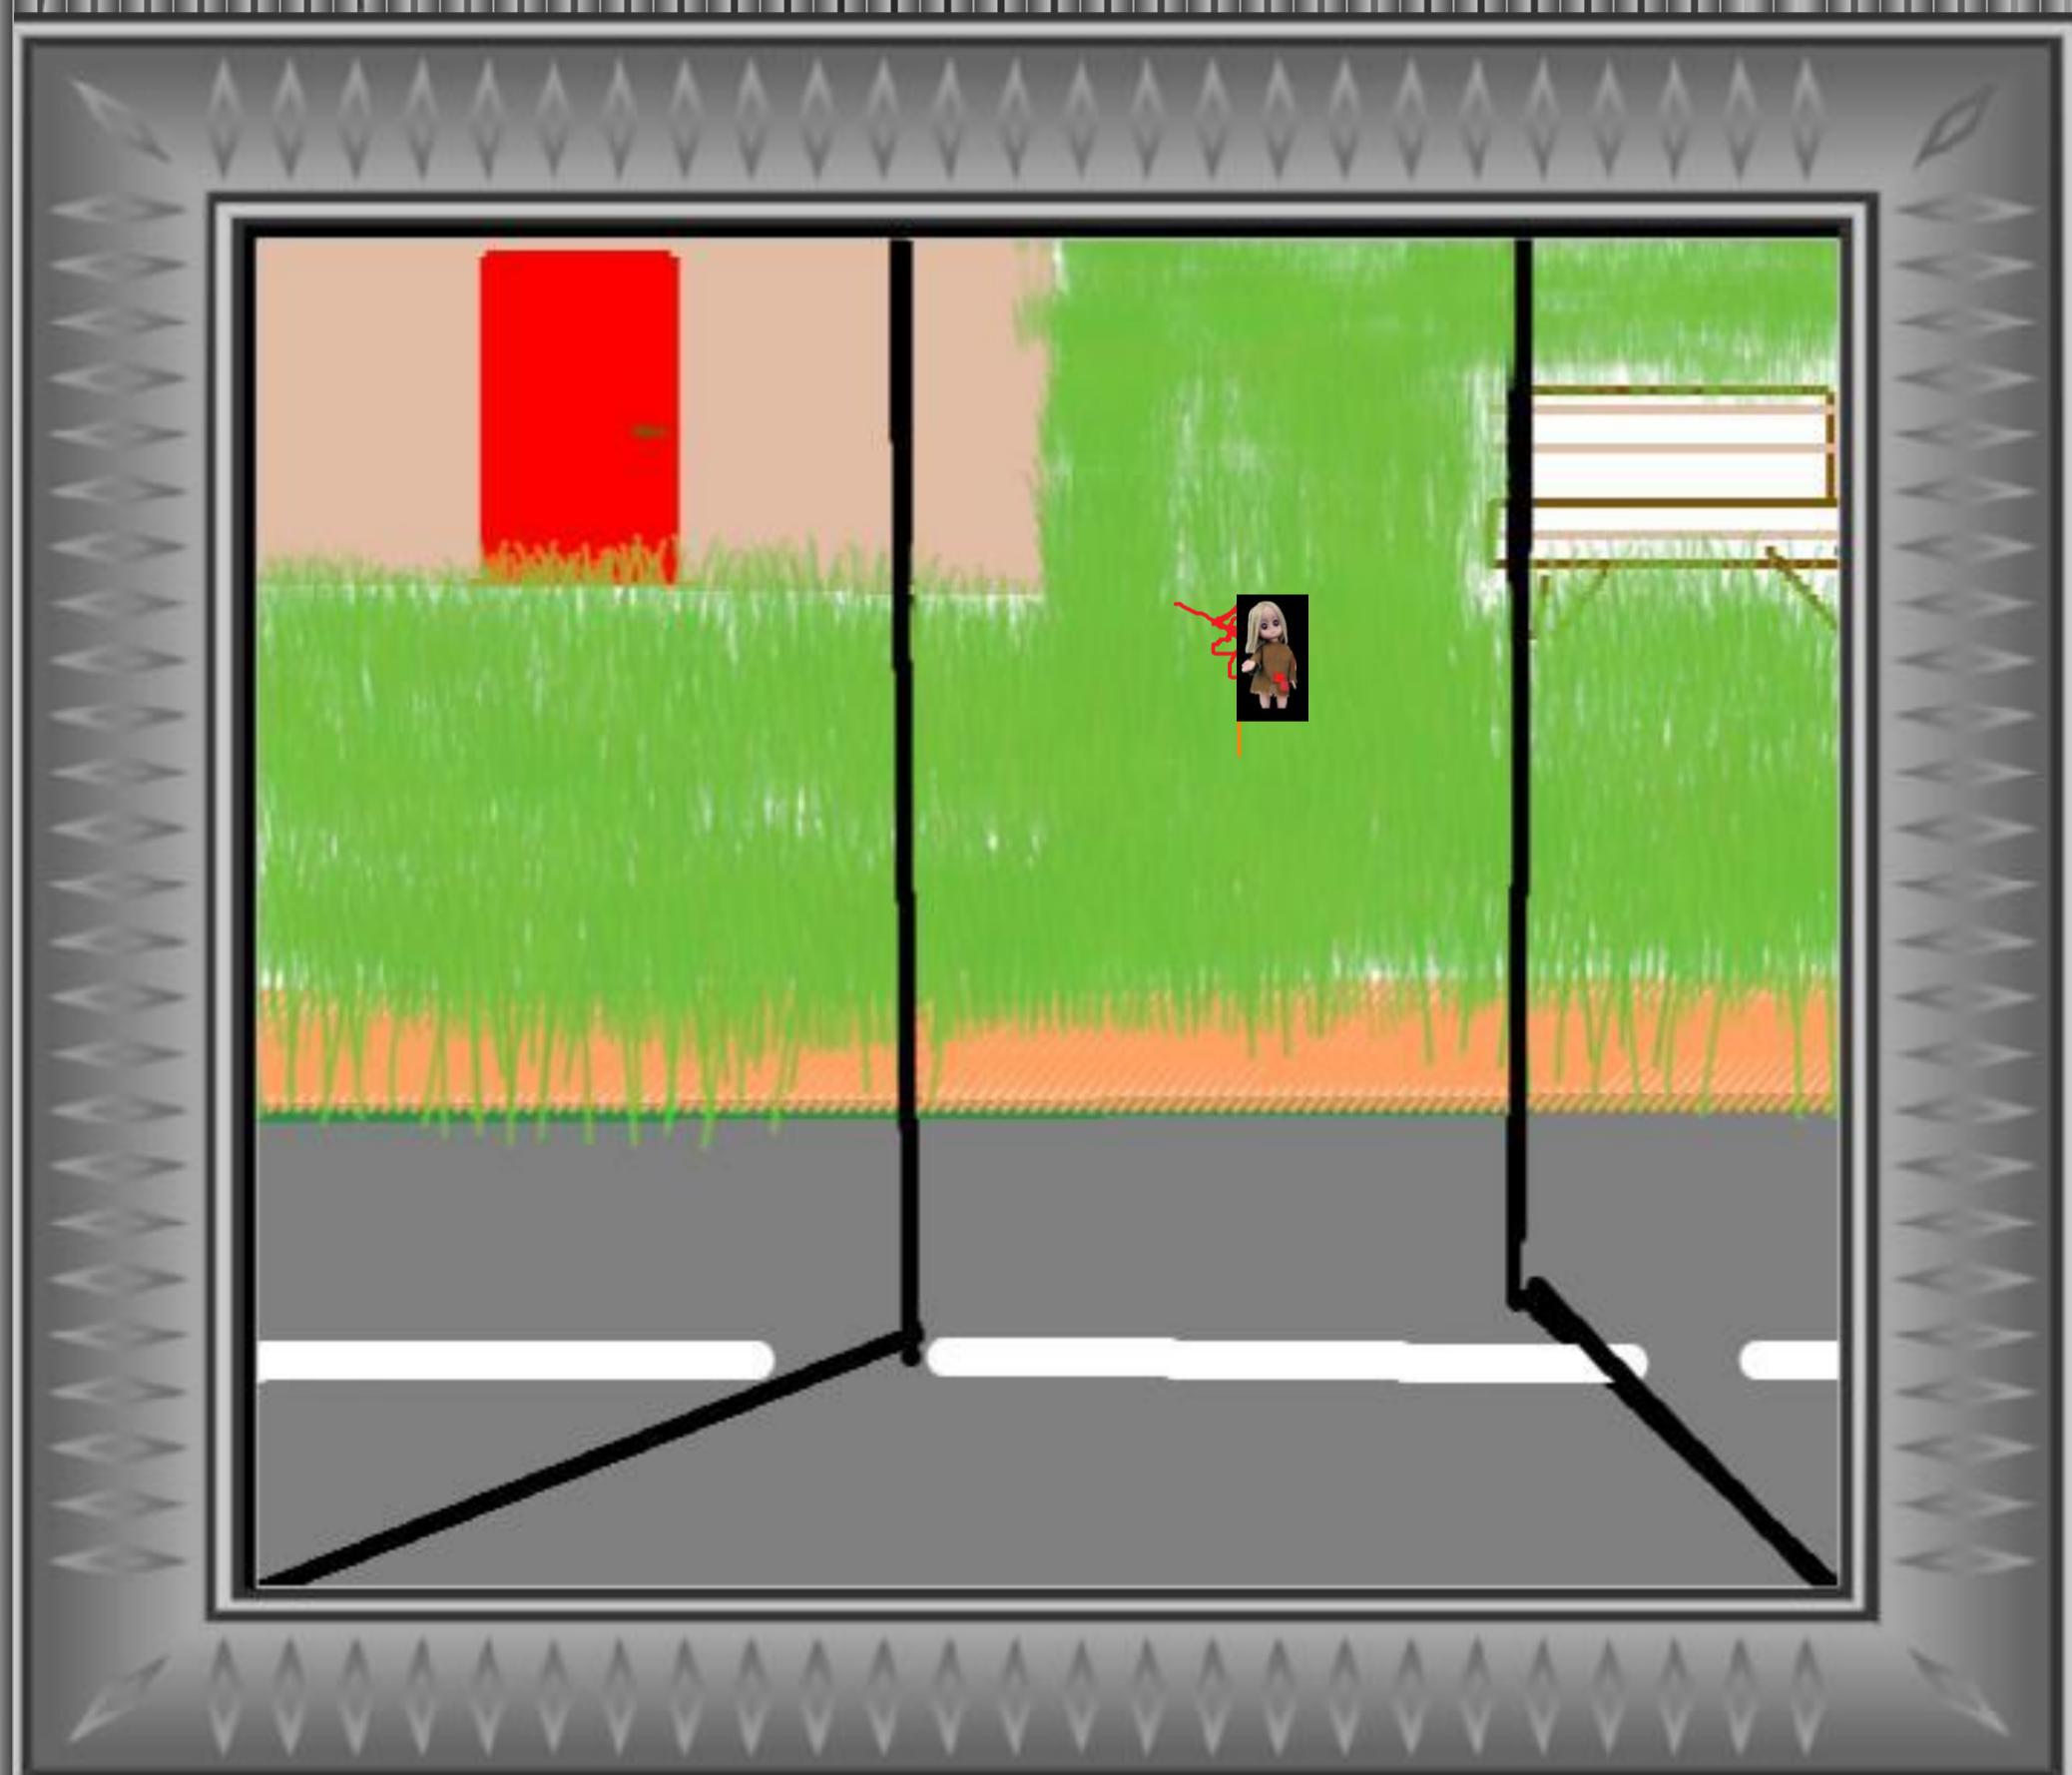

“I don’t want to go to school today.”said Pinky.

“It’s your last day of school Pinky.”

“Okay, I will go only if you will come to pick me early from school.”

“Okay, now go to school.”

After that I saw the doll. She was not in her place, she was sitting on the bench. I ignored it and went towards the school.
